### TWO NEW WELLS ARE IN.

An Eight-Inch Stream One Hundred Feet Over the Derrick

EVIDENCES NO LACK OF PRESSURE

The Fort Worth Well Has Been Finished in a Satisfactory Manner. News of the Oil Field.

Beaumont, Texas, September 7.- There was a week end rush in the oil field late this afternoon and two gushers came in about dark.

The Moore-Skinner well, owned jointly by the Gladys, Enterprise and Lucky Dime Oil companies was the first well to spout. It came is in splendid condition. In fact, there are few if any wells on the bill finished up in better shape than the Moera-Skinner well. It is situated on acre 2, block 38, and came in at the depth of 910 feet. The well is eight inches in diameter mt the bottom. The oil came in an eight-inch stream and shot 100 feet over the der-rick, showing that the wonderful force that expels the oil from the carth is not at all diminished. The woll was drilled by I. J. Stevens and the eight-inch casing is set a feet into the oil saud.

The Fort Worth Oll company's well. which spouted fitfully last week, was drilled past the stratum which furnished the spasmodle flow and come in at dark this evening at a depth of 974 fect. There the break in Beaumont Confederated. This was nothing uncertain about the flow of the word this time, it shot a steady for the last few works, but restorday it stream high over the derrick and was in every way satisfactory. It was drilled by the Lones The Fort Worth well makes the forty-seventh guster in the field.

field, and had it not been for the flurry federated would sell above 30 cents. caused by the action of the Guffey well at | Grace was also lower, selling at 41/2 cents, Sour Lake there would have been almost against 5½ cents bid a few days ago, when nothing in the nature of news. It is true that the Besumont Cousolblated well Manhattan did not maintain the boom it sported this week, but it gushed considerably less week, and its coming in was practically discounted.

There are a bumber of wells on Spinals.

From the territory of Spindle Top and in other localities where prospecting is being done, little news of an important character has come in during the week.

except that from the Guffer well at Sour Lake. Several oil men of this city who are familiar with the actions of that well having seen it since it became active this time do not hesitate to exgress the belief Luke. Several oil men of this city who are familiar with the actions of that well having seen it since it became neithe this time, do not hestiate to express the beller that it will make a splendid well. The Gindry company gives out the information, that it does not expect to ger-a gusher. The well is still something of a puzzle of the drillers. It will be drilled deeper as soon as conditions in the well permit the resumption of the work.

The building of pipe lines and storage tanks goes stendily on, and each company that has a gusher is preparing as rapidly as possible to saip oil.

+++ W. S Heywood of the Heywood Oil esurpany is at home after a several days' absence from the city. Mr. Herwood has Just closed a contract to supply the Southern Cetton Cil company of Houston with Chited States ... Victor Venydus burners.

# NEW GOODS

Have been piling in on us for the last week in astonishingly large quantities. Almost every department received something, particular among them may be mentioned: Ladies' Skirts, Waists and Tailored Costumes, Dress Goods, in colors and black, and an excellent special purchase of Black Silks. We will make a special effort to have everything ready for you Monday. We haven't time to tell you of only a small part of what you will find on sale. . . . See the Monday specials mentioned below.

# PRIESTLEY'S BLACK GOODS

THEIR NEW SHOWINGS FOR FALL AND WINTER ARE HERE

To most well posted women the name of "Priestley" has become a snynonym for everything that is strictly desirable; its imprint on the edge of a piece of goods is sufficient guarantee that the fabric is all that is claimed for it. Their entire line of new weaves for the coming season can be found here. Many are high class novelties in silk and wool mixtures; others, the more staple kinds, for skirts and tailored costumes, among which these will be found in medium and heavy weights.

52-inch Wool Cheviot, per yard ...... 89c 54-inch Camels' Hair Melton, yard ...1.50 38-inch Wool Melrose, per yard ...... 98c 54-inch Wool Cravenette, per yard 1.50 42-inch Wool Etamine, per yard 1.00 50-inch Camels' Hair Changra, yard 1.50 48-inch Cravenette Cheviot, per yard 1.00 45-inch Wool Etamine, per yard ..... 1.50 46-inch Basket Weave Suiting, yard 1.25 45-inch Panne Satin Cloth, per yard 1.50 48-inch Wool Prunella, per yard 1.25 54-inch Wool Meltons, per yard 1.50 38-inch Silk Warp Crepe, per yard 1.50 52-inch Wool Zebelines, per yard

The heavy, rough and plain effects in the above goods have all been sponged and shrunk, consequently will not shrink or spot from w ter.

mes, in that, if it becomes bernided abroad that Texas proposes to tax oil when developed by the industry of man and the expenditure of capital, the prespectors of the United States will at once conclude that if Texas piaces a special tax on oil, it will, with equal invoice, tax the fron curpur of the State, the coal output when missed, and finally all other products wring from the grasp of the earth by the labor of man. This being so, prospectors will lock for other fields to develope and capital will follow the prospector.

Hesoul: Our State will be handlcapped in the race for supremacy and be the last one in the galaxy of stars to shine for the pleasure and profit of its eftheories. Sapital will thus be forced to operate in other States, and don't you forgrej it "there are others" who are waiting and who by liberal legislation will attract prospectors and capital, to our loss, Colorado for example.
